Sheet Pile Driving

Being the leading sheet pile trading company, UNIK also undertakes sheet pile driving & extraction jobs associating with the country’s leading sheet pile driving companies. We use both silent and vibrate hammer for sheet piles driving and removing based on customer requirements. We also do pre-boring and construction of struts works depending on the piling requirements.

Why Unik Traders

- ✓ Working with leading sheet pile driving and extraction Company
- ✓ Experienced and specialized personnel for sheet piling.
- ✓ Wide range of Sheet pile driving machines, Vibrate Hammer from 1.5MT to 10MT and Silent Hammer from 10MT to 150MT.

Sheet Pile Rental Service

Prompted by customer demand, we also rent steel sheet piles for temporary works which save their money and time in order to complete the projects on time.

Temporary applications can be cofferdams, shoring, support structures and large infrastructure projects like railroads, road construction, and excavations, especially when groundwater is shallow.

UNIK’S Sheet Pile rental service allows customers to significantly save money without harming the quality of work. In addition, work performance is significantly accelerated. The customer does not need to search for the necessary material on his own and resell it after the completion of the project, since we will undertake to remove the material.
